

technical product information

Product Number/Activator	392/7387	332/7387	326/7649	E-214HP	380
Key Product Features	Ultra Fast, High Thermal Resistance	Highest Thermal, Impact & Shock Resistance	Fast Fixturing, High Strength	High Strength, Heat Cure	Low Viscosity, Small Gaps
Chemical Type	Modified Acrylic	Modified Acrylic	Urethane Methacrylate Ester	Epoxy	Cyanoacrylate
Viscosity, cP	60,000	200,000	18,000	150,000	200
Cure Speed Fixture Full	30 seconds 24 hours	1 minute 24 hours	40 seconds 24 hours	40 minutes @120°C 24 hours	15 seconds 24 hours

For additional Technical Information, request Technical Data Sheets and Material Safety Data Sheets by calling 1-800-562-8483.
